Development of 90 New Houses in Thurrington.

Dear Sir,

I agree with the 16 items written in the Parish Council working group.
I would draw your attention to the references 1-13 as presented by the Parish Council.
I would draw your attention to our address. We live at the bottom of Back Lane.
I would suppose that the water run off from the proposed new properties, built on a green field site will finish up in the river Weaver.
This already causes flooding (part of the Leicestershire round in a Conservation Area) and will undoubtedly make life in the cottages at the bottom of Back Lane un-inhabitable.
I would leave this to your good common sense to refuse this application

Thanking you.

Yours sincerely.

Lillian & Terence Freestone.
