Subject: Objection to proposed planning

We are residents of Thrussington where 2 large housing developments are currently being proposed, reference numbers: P/21/0989/2, P/21/0717/2.

Our objections are as follows:
1) The proposed 90 houses represents an increase of nearly 40% of the village. Thrussington has maintained a particular character for many hundreds of years which will be destroyed forever with these plans.
2) The streets are already packed with cars in the evening and simply does not have the space to accommodate further traffic. No traffic assessments has been undertaken.
3) From a wildlife point of view, we have bats at dusk so they will be roosting in the nearby area and we frequently hear owls at night in the tree lines. We also have grass snakes and toads in our garden.

In summary, these proposals represent not only damage to the wildlife but also the character of an ancient village.

Yours faithfully,
Mark & Clare Harris.
