WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
Cotes Road is a narrow road,especially at the High Street end. It barely copes with the amount of traffic it currently has at peak times. Mornings are especially congested and if you do not leave before 8am, it is very difficult to get through without a considerable delay. When Humphrey Perkins closes in the afternoon, it is impossible to get through with large school buses and cars. The school children tend to spill out onto the streets as the footpaths are very narrow. There is no room to increase the width of the footpaths without further narrowing the road. As a parent, I know that when my children were of primary school age, they always liked to walk side by side with me on the footpath.This is not possible on these footpaths.Putting in another school and many more houses is a ludicrous and dangerous proposition for everyone in this area. Also, on off peak times, one always has to duck in and out of the road while driving at the High Street end,as there are many residents who choose to park legally on the street. I think it will create a very dangerous situation for the school children, residents and motorists. There are already many new homes on Cotes Road and the road just about copes with the extra volume. The plan also does not take the destruction of wildlife into consideration. The fields outlined for development are the only areas of wildlife left in this part of Barrow upon Soar. The hedgerows,fields and habitats are going to be further destroyed. All the wild animals such as foxes, hares and hedgehogs will be endangered as will the birds such as the Red Kite. The beautiful dawn chorus which awakens us in the morning will be a thing of the past. I think it is disgraceful how our wildlife is being further disseminated. I hope that will take my concerns into consideration as a very anxious resident. Thank you.		No

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
There is a functioning farm on a substantial area of this proposed development. It contains cows and other bovine creatures. This plan will further minimise the natural purpose of this land which has been traditionally used for farming for many years. The plan will force farmer out of his holding in exchange for a large sum of money and destroy the rural nature of the village. The existing residents on Cotes Road are effectively being sandwiched in between two large housing developments - one across the road and the other now being proposed to go behind them. There is an amazing vista from Cotes Road over the Soar Valley which extends right over to Beacon Hill. This will be totally eliminated by filling it with houses. This rolling countryside cannot be redeemed if it is covered with more sprawling housing estates. The cemetery on Cotes Road is fittingly a lovely tranquil and peaceful site which is backing onto this wonderful scenic and idyllic back drop. The proposed plan will smother it with houses, extra traffic and noise. It will destroy the sanctity of this hallowed site. I hope that my concerns will not be overlooked as this plan is being considered. Thank you.		No
