WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
With respect to legal compliance it is not clear that conflicts of interest of plan leaders have been properly or adequately addressed. The plan extends development uphill from the level of the Wood Brook and will significantly impact views both from the Outwoods over Loughborough and views of the Outwoods from Loughborough and when previously considered this has been considered to be not in accord with the wishes of the population. Once this development is allowed, the floodgates will be opened for further development up to the Forest, an area of major recreational use for walkers, runners, horse riders and cyclists. This is an exceptionally contentious issue for the local population. During elections for local councillors, manifestos consistently have included commitments to try to prevent such encroachment. Consultation has not been sufficient: many people have only become aware of these proposals through the late attachment of relatively few notices to occasional lamp posts. these issues render the plan unsound and non compliant with satisfactory standards of conduct. The proposals would increase the risk of flooding from the Woodbrook which has already been made worse by the recent development of Beck Crescent.	Areas of development West of the Woodbrook should be removed from the plan. Further consultation to demonstrate sufficient consideration of the population's wishes should be undertaken. Planning members with significant conflicts of interest should be removed from committees producing amended plans.	No
