WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
4(2) Not sound, not justified Paragraph 8.43 confirms the Council will support the Leicestershire and Rutland Wildlife Trust 'Living Landscapes' scheme. This will include supporting initiatives such as the Leicestershire and Rutland Wildlife Trust's 'Living Landscapes' schemes for the Charnwood Forest and the Soar and Wreake which aim to restore, recreate and reconnect fragmented habitats to create a resilient and healthy environment, accessible and useful for people and wildlife. The Local Plan fails to identify the locations of these 'fragmented habitats' despite the availability of data from DEFRA [1], for example as shown in the map below. On the map, the Priority Habitats shown have impact on the sites HA15, HA16, HA17 and HA18 as well as the Leconfield Road site that remains the subject of a planning application despite being taken out of the Local Plan. The Council's approach is not justified as there is additional relevant data that has not been taken into account. ? Paragraph 3.80 must refer to Defra maps to clarify the actual locations of the ecological networks that must be protected in the Borough.	No
