Mr David Keen	No	No	No	Policy		The policy in the previous Local Plan of meeting the open space needs of the community has been dropped and must be reinstated Policy EV9 Open Spaces, Sport and Recreation			

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
4(2) Not sound, not positively prepared The Council's Core Strategy CS15 of the previous local plan states We will work with our partners to meet the strategic open space needs of our community by 2028. Without any justification whatsoever, the Council appears to have dropped this policy, possibly because the target date of 2028 is now much closer. Does it now care less for the health and wellbeing of residents than it did six years ago? Dropping the policy is clearly at odds with NPPF 35(a) which says that plans must be (a) Positively prepared – providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs	(1) EV9 to be modified to include the statement. We will work with our partners to meet the strategic open space needs of our community by 2028. (2) It must be made clear that the open space needs are those specified in the Charnwood Open Spaces Strategy 2018-2036. It identifies shortfalls in provision for a range of typologies of open space in terms of quantity, accessibility and quality. (3) With 2028 coming soon, the Council must, as part of its Local Plan documentation, submit a realistic and target-based plan to ensure that the open space needs will be met during the five-year lifetime of Local Plan.
