FULL NAME	DUTY TO COOPERATE	LEGALLY COMPLIANT	SOUND	WHICH PART	WHICH PARAGRAPHS	WHICH POLICY	WHICH POLICY MAP	WHICH DIAGRAM	WHICH TABLE
Mr J Adams	No	No	No	Diagram				As a first representation, overall summary map -specifically areas HA15, HA16 and HA17.	

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
1) I am not a solicitor or equivalent so don't see how I can comment on the legality of the document, however I would question that the duty to cooperate has been fully discharged given that those most affected have not been consulted directly. Information has been obtained 3rd hand and with little time now to comment properly. 2) CBC's opening statement of making Charnwood one of the most desirable places to live, work and visit in the East Midlands has to be questioned given the proposals to yet again develop on green field sites which require the removal forever of productive agricultural land and amenity, together with unacceptable disruption to daily life of residents most affected by the proposed developments. 3)Area HA16 has already been rejected for development by CBC so what has changed? 4) The development of the areas concerned; partcularly HA16 is expected to involve significant impact on the immediate local community with anticipated access to the site through unsuitable highways and passing two schools and a number of established residential property. This is considered to be a failure to properly plan- one of any LGO and NGO's duties? 5) As stated above this representation is the first opportunity to comment ahead of the proposed deadline - seen at head of the consultation. I may or may not have time to comment further in the time left, but would ask for comments made so far to be duly considered and forwarded on to the duly elected councillor(s) for the area and the head of the planning committee. Thank you.	Unable to comment based on the legal jargon provided, but would suggest the removal of area HA16 from the plan and a review of the impact of HA15 and HA17.	Yes	Opportunity to understand and comment on areas of concern.
