Subject: CHARNWOOD BOROUGH's LOCAL PLAN FOR BARKBY AND BARKBY THORPE

Dear sir/madam,

I fully understand the need for increased housing and actually feel the plans that are marked HA8 on the local plans have been thoughtfully put together as they have a very decent green corridor surrounding the new housing.

However the same consideration has not been given to the new housing plans for HA1, HA2 and HA3. From what I understand the new housing there seems to be extremely concentrated with no green corridors or separation from existing housing.

I strongly object to any housing for HA1, HA2 and HA3 as I feel should housing be built there should be green corridors, surrounds as seen with housing for HA8.

As well as a need for more schools, Drs surgeries and road infrastructure.

The additional building will also have a sharp increase in flooding of the area as it is relatively flat there. So increased drainage and lagoons are a must too.

I do hope should the new housing go ahead in HA1, 2 and 3 then you will have green wedges separating each area with wildflowers and areas of nature for all to enjoy.

Yours faithfully
Heena Solanki.
