WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
The inclusion of the additional proposal HA14 on fields adjacent to Cliffe Road and Henson Close in Birstall will significantly compromise the green wedge and area of local separation when viewed in the context of the building developments nearby within the Leicester City Council boundary at Ashton Green. This field is particularly valuable as an area for local people to exercise and enjoy the natural environment. There are limited green spaces to the West of the A6 in Birstall and encroaching on this with access roads and housing will inevitably impact on the lives of people of all ages who use it. The policy in the local plan to focus development almost exclusively in the Leicester Urban Area, with large sites to the North and South of Birstall, as well as the proposed HA14 will risk pressure on the community infrastructure and local road networks with further impact on the environment. It will also risk the loss of the distinctive community of Birstall.	Relocation of planned building of new homes into brown field sites	No
