With reference to the Local plan here is my submission

DETAILS
NPPF clause 100 (2018 version) sets out the measures of "local significance" to be used in demonstrating why a Local Green Space is special to the community. The Council's assessment claims that the local significance of tranquility is not demonstrated. in July 2020 Nanpantan Resident's Group conducted a survey of residents use of the land and in an open question, our residents were asked why they valued the field and 22 of the 79 respondents mentioned tranquility. This is a clear demonstration of local significance.

MODIFICATION
Change the outcome to "The tranquility of the site is of local significance as demonstrated by the local residents"
