

Fairtrade means that people who grow or produce what we buy are paid a fair price, they have fair working conditions, they can feed and educate their children - and we get great products

Charnwood - A Fairtrade Borough

In 2006 Charnwood was awarded Fairtrade Borough status by the Fairtrade Foundation.

In order to gain this prestigious award five key goals had to be met. These goals included gaining support from the local council, ensuring that local shops and restaurants offer Fairtrade products, ensuring that Fairtrade products are used in local businesses, a steering group is formed to raise support and that the campaign attracts media coverage and local support.

CAFF are a local community group set up to promote Fairtrade products and the principles of fair trade.

If you are interested in promoting Fairtrade locally why not get in touch.

We can be contacted through our website below or through email fairtrade@charnwood.gov.uk

Why buy Fairtrade?

The money you pay for your Fairtrade product helps ensure that ethical standards of trade are met. These standards offer a lifeline for producers across the world by providing a fairer way of trading rather than simply offering aid. Small scale producers are often at the mercy of global markets, which can mean they receive less for their product than it costs for them to grow and produce it in the first place. This can cause immense hardship for the workers and their families. To start making a difference look for and buy Fairtrade products from your local shops.
