

Consultation Results and Outcome

Outcomes of consultation:

In each case there has been a clear favourite so the council can be certain that the right play area will be installed.

Children and parents have been able to tell us the equipment and features that they like and dislike.

This will be the first play equipment supplied by Proludic in Charnwood and therefore all the equipment will be new and exciting for local children to enjoy. Participants also helped to decide the location of the play areas.

For further information please contact Colin Bailey, Green Spaces Manager 01509 632530
