

**17. Sandra Danaher**

Dear Sirs

I would like to make a comment on the Rearsby local plan.

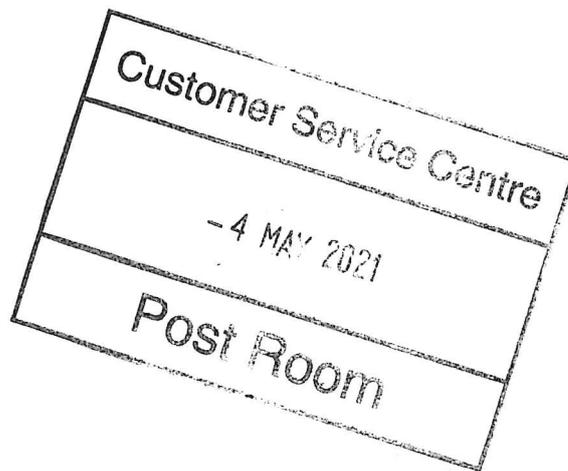

We live in Rearsby House and note that the area of permitted development runs inside our garden.

We would point out that there is already a building within that area and the permitted development limit needs to run outside the garden and building.

Kind regards

Sandra Danaher

Dear Sirs,

Rearsby proposed Neighbourhood Plan.

We refer to the proposed neighbourhood plan and note that limits to development place our garden outside the area.

We would like to point out that there are already buildings within that area and would like the boundary moving to include those buildings. The buildings are attached to the main house and are effectively part of it.

I attach a plan showing the buildings and our garden. There is a swimming pool and lodge building attached.

We would like to object to the plan as drawn up and please notify us of any decisions to adopt the plan.

Yours faithfully,  
  
Daniel and Sandra Danaher
