

## **2. Karl Hammond**

Dear Sir/Madam,

I wish to raise a small point regarding the Woodhouse Neighbourhood Plan that I hoped you could rectify. I raised a few concerns with the Neighbourhood Plan Committee ahead of their submission to you and while many of these have been addressed, there remains what I believe to be an error/oversight regarding our garden, which is detailed as a open land parcel with legal access rights where this is clearly not the case. Specifically in Appendix 6, our garden (no. 287 in the scheme) is shown as having legal access rights and we would like this to be corrected please. We also wonder what implications this has for figure 8 on page 28 which shows our garden as an open land parcel scored highly for environmental significance; as a private garden with no access rights this would not appear to fit the criteria for an open land parcel?

I look forward to your response. Please feel free to get in touch with any questions you may have.

Kind Regards,

Karl Hammond
