

All a flutter

Be a Charnwood Museum Bird watcher!

Take a look at this picture of all the Birds playing in Queens Park,
Then have a go at answering these questions.....

1. How many different **colours** can you find on their beaks?
2. How many **Triangle** shapes can you find?
3. How many **Heart** shapes?
4. How many **Circle** shapes?
5. Can you find some other creatures that **fly**? What are they and how many can you find?
6. Have you found any creatures that can't fly?
7. Finally, how many '**eyes**' can you find?

Why not try,

Keep the fun going,

- draw your own bird. Add lots of patterns and colours onto it if you can.
- Look outside and see how many birds you can see in 15 minutes
- Where do you think the birds live?
Write a little story or Draw a picture of the birds in their home.
