WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>The local schools - Holywell Primary, Outwoods Edge Primary, and Woodbrook Vale secondary school, are already at capacity and unable to accommodate all children from within catchment. These schools are all academies so can limit their intake and not be forced to larger enrolments by the LEA.</p> <p>The housing proposed within H15, H16 and H17 does not include any new schools (or other amenities - doctors surgeries, local shops, etc). The infrastructure locally is already struggling to cope with the increase in school age children with the expansion of the Grange Park estate (the 2018 intake at Woodbrook Vale had a catchment reduced to 0.6 miles and students from local primary schools were instead offered places in Shepshed, Barrow, and further afield.</p> <p>The proposed developments will also see huge reduction in green spaces and farmland in these areas, which is currently enjoyed by walkers, cyclists, horseriders, school trips to examine certain features, etc.</p> <p>Plans to reduce bus services also mean that people who rely on buses for work, shopping etc are at increased risk of isolation, social exclusion and unemployment in these new estates that are even further from existing bus networks.</p>	<p>The plan needs to be comprehensive and include consideration of local amenities and transport needs within these new estates. The need for new housing should be queried - empty industrial buildings, brownfield sites etc should be utilised before more green space is subsumed into the urban sprawl.</p>	<p>No</p>
