Mr Mark A. Hynds	No	No	No	Policy		PROPOSED 90 NEW HOUSES IN THRUSSINGTON			

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>The proposed plan of building 90 new houses in the village of thrussington represents way too much of an increase to the village and would put a strain on the already struggling road network. the village already struggles with parking - in the centre both sides of the road have cars parked on both sides of the village reducing it essentially to a 'single lane'. often households these days have 2 cars - 90 houses could therefore potentially add 180 cars on the roads of the village - completely unsustainable. Actual facilities in the village are also sparse.</p> <p>it is important that the character of the village and its surrounding area that is also home to much wildlife is maintained. of more concern is that this proposal is NOT something that was in any way part of the Neighbourhood plan adopted by yourselves in 2018. this latest proposal/plan from yourselves is therefore unsound - an increase of nearly 40% in terms of households is unsustainable for the village.</p>		No
