WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>██████████ overlooks the farmland which will be devastated by these proposed developments.</p> <p>In the years we have lived here Anstey has seen very major housing developments which have had a major negative impact on the quality of life. This includes much increased congestion on the restricted roads and increased levels of pollution. The land at High Leys farm provides a vital area of greenspace for wildlife, we see pheasants, deer, foxes, rabbits, bats, toads and frogs. Also there is a very wide range of birds including green and spotted woodpeckers, goldfinch, chaffinch, skylarks, various owls, sparrow hawks and migrating birds are also seen.</p> <p>It would be devastating if this precious area were to be lost.</p> <p>In addition to the above points it seems to me that this plan puts an unfair burden on Anstey which has already taken much new housing in recent years. For when I reviewed the map at page 23 it shows no proposed developments during the period of the plan for Quorn, Moutsorrel, Woodhouse Eves or Thurstaston with only minor developments at Rothley. The infrastructure at these villages is probably better able than Anstey to accommodate any additional housing developments.</p>	<p>The plan does not explain why Anstey has to take an inordinate proportion of the additional housing and in particular the proposed development HA43 on virgin farmland is inappropriate and should be removed or significantly modified.</p>	<p>No</p>
