**Subject:** Barkby and Barkby Thorpe new housing plans

Good afternoon,

It appears that the council's do not look at one another's plans when earmarking land for building to appease the government outrageous housing targets, if they did they would see that Scraftoft and the surrounding villages boarder Leicester city, Harborough and Charnwood councils and the new housing already built and proposed new housing developments are ridiculous.

The country lanes in the area have already become race tracks and are a danger for pedestrians, horse riders and walkers alike, yes that's what people do in the countryside!

Not for much longer though if all these schemes go ahead, all of village life will dissapear and villages gobbled up for good, it's no wonder flooding is becoming more and more frequent when councils want to build on every blade of grass just to achieve government targets, why not look at refurbishment of empty offices and factories which stand unused and fall derelict instead of destroying countryside and adding to climate change?

Kind regards

Gary Tweedie
