Dear sir or madam,

[REDACTED]

As I look out of my kitchen window across the fields I can see Barkby church spire in the distance. The building project that is have proposed will be an absolute environmental disaster as well as an eyesore. The bird life habitat that will be destroyed will be devastating, I take pleasure in the fact I have managed to encourage Robins, Blue tits, Yellow Hammers, countless Sparrows, and Blackbirds to feed in my garden we also get visits from Magpies and Buzzards. I have planted numerous flowering plants, they full of bees and butterflies during the summer months. This is what naturalists are saying we should do for the environment, whilst sweeping government policy doesn't seem to care, why? I am hopeful common sense will put a stop to this nonsense, if not I doubt I will ever see birds like in the video I have enclosed with email again in our garden and that is beyond a great shame. I haven't even mentioned the animal and bird wildlife that live in the fields, Foxes, Badgers, Pheasant, Partridge and many others. Please put a stop to this for the sake of the environment! When it's gone, it's gone!

Kind regards

Adam Turner
