WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>This plan is running rough shod over residents who have fought long and hard to stop over building on sites that are inappropriate. This document is giving every developer in the country the go ahead to attack villages without a by or leave to the existing residents and infrastructure.</p> <p>It has outlined a site HA64 that has previously been rejected by Charnwood borough council.</p> <p>This site is one of 2 fields of green land between villages and to build on the site would join the villages.</p> <p>It also has given another site HA65 for development, this is 1 of the 2 fields separating Quenibrough and East Goscote.</p> <p>We should be nurturing these green fields and not opening them up for property developers.</p> <p>HA4 is another site listed.</p> <p>This is a site that borders Syston and Queniborough. The site is positioned that the most of the development would fall under Queniborough not Syston as listed.</p> <p>All of these identified sites would link Syston, Queniborough and East Goscote with no separation between each.</p> <p>All 3 of these sites are significant to the identities of the town and villages that they fall between and I feel the people who have earmarked these sites have very little empathy and understanding on keeping villages separate from each other.</p> <p>These should not be included in your local plan as Queniborough will bare the brunt of these sites and has already been over developed.</p> <p>This document is recommending a further 287 houses if it keeps to the amounts mentioned. The majority of which will fall into the boundaries of Queniborough. HA4 is hiding under the disguise of Syston, not appreciating that the land falls into the boundaries of Queniborough and its parish council.</p> <p>The whole area does not have the facilities to maintain such an enormous amount of properties.</p>		No
