WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>Overdevelopment has already eroded the individual character of the village and this development will be entirely out of character with the rest of the village. It will result not only in the loss of agricultural land, but of habitat too, and will erode the division between us and East Goscote.</p> <p>There is no infrastructure or employment in Queniborough to sustain further development, so a further increase in traffic would result in it making it even more difficult to get out of New Zealand Lane onto the main Melton Road resulting in even more air and noise pollution.</p> <p>The local school is already full to bursting, as is the local doctors in Syston, and any further increase in the local population could be disastrous. The Emergency Services are stretched to breaking point already, and could not sustain any further homes in this area. They may simply not be able to get through the proposed single access road, and lives may be lost.....plus the crime rate (which was nil in the village) has escalated as a direct result of recent additions to the village - we do not need any more!</p>	<p>No more residences or development in Queniborough. If we had wanted to live in a town/urban sprawl then we would already be doing so. Our village is already being spoilt by greedy unethical developers, who don't live here and who don't care about anyone but themselves. Please do not let this proposal go ahead.</p>	<p>No</p>
