Mr Namrit Ashok	No	No	No	Policy		Local Green Space conclusion for Leconfield 4 Paragraph Leconfield Road, Site A, pages 4-6 Policy Local Plan Local Green Space Assessment 2021 4(2) Not sound, not justified			

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>The LGS conclusion says the site is</p> <p>if the current planning application was approved it would result in the site not being able to endure beyond the end of the plan period.</p> <p>This does not address if the site is capable of enduring. Where does this leave us?</p> <ul style="list-style-type: none">Is LGS designation going to be designated at this site if the planning application is not accepted?<ul style="list-style-type: none">When can the site become LGS - as soon as planning is refused? Next local plan?Why is the decision just being deferred to an event outside the control of the local plan?If the current planning application is refused, can proposers just apply for planning permission again to scupper LGS?Can anyone apply for planning permission on any land being considered for LGS status and so prevent designation? <p>Surely these questions demonstrate the illogicality of the whole idea of assessing sites for LGS designation based on planning applications. Planning applications are decided using local plans and plan making should not be dependent on planning applications, existing or otherwise. The criterion related to considering planning applications as part of the sustainability assessment must be removed.</p>	<p>The criterion that designation be based on planning applications must be removed. This means the final paragraph of the 'sustainability assessment' on page 2 must be deleted.</p> <p>The current illogical conclusion is all that is preventing designation. Leconfield must be given Local Green Space status.</p> <p>This removes the objection to Leconfield being assigned Local Green Space designation. It must now be given Local Green Space status.</p>	<p>No</p>
