WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>Infrastructure & Delivery</p> <p>I believe that the local plan has not taken into consideration the lack of good and stable infrastructure within Shepshed to met the new needs new housing will place upon it.</p> <p>The roads in Shepshed need to be updated and restructured to be able to cope with an increase in traffic flow.</p> <p>The school issues have been well connected and CBC has worked with others to plan this so this is fine. But again with regard to Shepshed car parking will be the main issue here.</p> <p>The lack of sports and recreation within Shepshed needs to be looked at as the new housing will require more sports options than Shepshed currently has. The Skate park update project has been on the back burner for 10 years and current local residents have written into the STC to ask for this to be looked at and updated.</p> <p>Shepshed cemetery is an issue as there is no space for it to be enlarged and currently family plots have to be stacked to save space. This is going to be an issue very quickly with the new housing coming into Shepshed. Shepshed needs either a new burial ground or to be linked into a new burial ground near another area.</p>		No

Cllr Myriam Roberts	Yes	Yes	Yes	Policy		Climate change - flooding			

WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>Climate change -flooding</p> <p>I believe that CBC has not taken into consideration when allowing the number of new housing developments to be built within Shepshed the higher risk of flooding this will cause due to the lack of flood plains.</p> <p>The flood plains are at risk of being reduced due to the number of new housing developments, therefore, creating more surface water to be visible and risks the drains being overwhelmed. This is currently an issue on lveshead road and the surrounding housing & new developments due to the age of the pipes within the drainage works.</p> <p>I believe that CBC needs to make sure developers take the risk of flooding seriously and try to protect flood plains in their development plans.</p>		No
