Re the plan to build 90 new houses:-

1. What plans are in hand to avoid any damage to the old sewers system in the village.
2. The drains on Old Gate Road are blocked causing water to flow down into the village. This needs to be cleared as things are. How will it be avoided in future with more houses there.
3. How will you avoid parking problems given there is insufficient parking space already in the village.

Elaine Donaghy.
