WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
	<p>Why should CBC defend Public Inquiry three years ago and then go against all that was fought for.</p> <p>The site maybe contaminated with waste from the Ordanance depot which was there int the late 40's.</p> <p>The lower part of the site has a flood risk. Residents of the Rearsby Roses development have in the past made holes in their gardens which have rapidly filled with water.</p> <p>There are some protected species of animals and birds in this area such of bats and Badgers.</p> <p>Although the site is supposedly within 1200 metres of the school, the furthest houses may not be. It is assumed that these residents will walk their children to school but it does not work that way: there is no bus service to the school - they will drive. This is human nature. Lingdale is often gridlocked at school start and finish times.</p> <p>The site will produce extra traffic on Melton Road, which would be a danger to pedestrians and also increase nitrogen pollution at Queniborough crossroads and Melton Road Syston.</p> <p>Part of the site is good agriculteral land.</p>	No
