|---|--|-----------|------------------|
| <p>The house building area shown on the plan for HA18 on page 48 shows the allocated house building area is close and in some areas upto the Charmwood forest Canal Footpath, so large areas of this allocated building area will be on the large steep bank which supports and is part of the foot path.</p> <p>The housing area should be positionned such as to leave a constant and sufficient area between the housing and the footpath so as to protect the bank and the trees on the boundary of the footpath.</p> | <p>alter the drawing to slightly move the building area to leave a constant and sufficient gap between the building and footpath.</p> <p>May be the wording should also state this as a requirement.</p> | <p>No</p> | |
