Subject: Cliff Road and Henson Close proposed development plan 2021-37

Dear Sirs

We have recently moved to Birstall and in particular to Henson Close.

I am extremely unhappy at the proposal to build housing on the green fields next to Cliffe Road and Henson Close.

Henson Close and Cliffe Road are small Roads and will not support the traffic that a housing development will bring. The development will also open up the road to heavy traffic and lorries which the road will not support. Not to mention the pollution levels which will increase expedientially and from which I moved to Birstall to escape.

Has the bridge over the railway been assessed? Can it bear vehicles over 7.5 tonnes?

The turning circles on Park Road and adjoining roads do not provide enough room to support heavy traffic and are not built for lorries. We know this as when we moved into Henson Close our moving vehicles struggled to come down the road and unload out belongings.

If access is granted from Greengate Lane - then why use Henson Close and Cliffe Road thus opening up a rat run this will then increase the traffic substantially, increasing pollution levels, risk of accidents and killing wildlife.

The local wildlife is enjoyed by all residents and gives pleasure to many.

The fields are used by walkers, dog walkers and ramblers who do not destroy the landscape.

This development is not needed as these houses can be built on brown land.

The proposal will also reduce the value of our houses, increase the noise pollution in this area increase pollution in general - which we have moved to Henson Close to escape from, destroy wildlife, become a rat run, cause accidents and which both Henson Close and Cliffe Roads will not support.

Yours sincerely

Mrs J A Headley
