WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
<p>The land proposed for housing is essential as a green space break between exisiting residential areas and essential to local residents' wellbeing. Many people use this space as the only wild space locally to walk or walk their dogs.</p> <p>The access to the new houses proposed would presumably be via Cliffe Road and Henson Close which would grossly disrupt the unique character of these quiet cul de sacs. Cliffe Road has many original Victorian railway houses. It is also an unadopted road presently and is unsuitable for building lorries and equipment and inadequate to accommodate the extra cars needed by new house owners. The impact on air quality and safety as well as the environment and quality of life is to be considered.</p>	<p>This may sound simplistic but building instead on a field away from existing homes with alternative access (eg the field beyond the one proposed where a new road is being built for Ashton Green development)would be much more preferable.</p> <p>Please consider this request seriously. We recognise the need for new homes to be built but it would be better for these to be built in a way that impacts local people and the environment in a less dramatic fashion.</p>	<p>No</p>
