Access to the proposed housing does not take into account the narrow access roads of Cliffe Road and Henson Close. Cliffe Road, the railway bridge and section of Park Road are also private unadopted roads. The road surface is not sufficient for the construction traffic nor the increased usage once the development has been completed. What if any consideration is proposed to upgrade the road surface and load bearing capacity for the road and bridge? What if any consideration is being given to traffic calming?	Poor access to the proposed development along private unadopted roads with insufficient capacity for the increased traffic.	No
