Subject: Public Consultation

Dear Sirs

I write in reference to the item in the Syston Town News which arrived at our home this weekend and the leaflet that was pushed through our door this afternoon regarding the local plans and the Public Consultation. I then saw an email that was sent this morning about a Virtual Meeting for the public to take place on Wednesday evening, in 2 days time, and which I cannot attend at such short notice. I really feel more time should have been given to the public to make them aware of such a meeting and so that they could make arrangements to be able to attend a virtual meeting.

However, I would like to have my comments recorded that we as a household in Syston are very concerned that there are more plans for more houses and I have heard that the buildings will be on the land at the rear of my property on Oak Drive, Syston along with other sites. The maps in the leaflet and on the website don't seem to be very clear to me. There is probably a great need for more housing but I, along with the rest of my family and neighbours are all very concerned about the lack of facilities for the amount of homes to be built. I know there is a plan for a new school but then someone said that's all very well but the Merton School may be closed to make up for it. Therefore I wonder if it would be possible to have a little more clarity. We could certainly make use of another Doctors surgery for the area or at least one where you could get in to see someone should the need arise and the roads are just simply not good enough to take all the extra traffic and cars that these houses will generate, you only have to look at the new builds on the top of Barkby Road to see how congested they are and god forbid a fire engine or ambulance has to try and get around the estates it must be awful for the crews to negotiate.

I would welcome any help you can provide and look forward to hearing from you.

Yours faithfully

Mrs Angela Montague
