WHY PLAN NOT SOUND	MODIFICATIONS	HEARINGS	HEARING SESSIONS
Barrow is already a severely crowded village with limited green space and stretched services. The Town Plan requires more amenities to serve current residents including,as proven through Covid an aging demographic. Please confirm your housing plan limits building to those suitable for older people thereby freeing up existing larger properties and provides the amenities needed. The previous Houses built have been approved based on limited additional cars and traffic all of which have been proved incorrect. Whilst the council may wish to see queuing traffic everywhere we do not. The roads frequently flood, with a single track bridge to the main commuting road that is often closed due to waterworks issued. The council has an obligation to its constituents not to hide behind government quotas and to identify brown field sites that genuinely do not increase cars and harm to the environment	Stop using Barriw as the quota and increasing harm to current residents, wildlife and the environment. Residents commuting from Barrow require cars and better transport links.	No
