2. Indirect Discrimination
3. Harassment
4. Victimisation
5. Discrimination by association
6. Discrimination by perception
7. Pregnancy and maternity discrimination
8. Discrimination arising from disability
9. Failing to make reasonable adjustments

 **Step 1 – Introductory information**

Title of the policy	Community Grant and Community Facilities Grant.
Name of lead officer and others undertaking this assessment	Julie Robinson
Date EIA started	May 2021
Date EIA completed	May 2021

 **Step 2 – Overview of policy/function being assessed:**

Outline: What is the purpose of this policy? (Specify aims and objectives)
<p>Charnwood Borough Council recognises the value and contribution of individuals, voluntary sector organisations and other community-led projects and the benefits they provide to the residents of Charnwood.</p> <p>Through our Charnwood grant schemes we provide a range of grants to help these organisations, groups and individuals access the funding support they need.</p> <p>Cabinet considers applications for funding for the Community Facilities Capital Grants and the Charnwood Community grants Scheme twice a year.</p> <p>It is the Councils aim to ensure the grants process is inclusive of all community groups and funding supports projects targeting individuals across a range of protected characteristics, as outlined in the Equality Act 2010.</p>
What specific group/s is the policy designed to affect/impact and what is the intended change or outcome for them?
<p>It is the Councils aim to ensure that the grants process is inclusive of all community groups and funding supports projects targeting individuals/ residents across a range of protected characteristics, as outlined in the Equality Act 2010.</p> <p>Analysis is therefore undertaken to ensure that the grants are distributed in a reasonable and proportionate manner.</p>
Which groups have been consulted as part of the creation or review of the policy?

Evaluation takes place on successful applications to analyse whether there any gaps with regards to the protected characteristics in order to ensure the grants process is fair and equal to all. In particular analysis is undertaken to determine any barriers which may prevent specific community groups/ communities of interest from successfully applying or even applying at all to Charnwood Grants. The VCS Development officers also undertake consultation with a range of VCS organisations.

### **Step 3 – What we already know and where there are gaps**

List any existing information/data do you have/monitor about different diverse groups in relation to this policy? Such as in relation to age, disability, gender reassignment, marriage and civil partnership, pregnancy & maternity, race, religion or belief, sex, sexual orientation etc.

Data/information such as:

- ✦ Consultation
- ✦ Previous Equality Impact Assessments
- ✦ Demographic information
- ✦ Anecdotal and other evidence

- ✦ Analysis of previous Community Development & Engagement Grants, Loughborough Grants, VCS Covid-19 Recovery grants and Community Facilities Grants over the past few years

What does this information / data tell you about diverse groups? If you do not hold or have access to any data/information on diverse groups, what do you need to begin collating / monitoring? (Please list)

The analysis of grants data shows that a wide range of groups access the available funding and have supported a diverse range and have covered the protected characteristics of age, disability, Race, sex/gender, and sexual orientation.

The data in the main shows that the groups / organisations supported have no specific protected characteristic identified and are available for the wider community to access.

It is acknowledged that some of the approved grants are towards projects which support individuals with multiple characteristics and those projects supporting the wider community have a wide range of beneficiaries.

### **Step 4 – Do we need to seek the views of others? If so, who?**

In light of the answers you have given in Step 2, do you need to consult with specific groups to identify needs / issues? If not please explain why.

Further equalities monitoring may be required for those projects which have applied and are deemed unsuccessful in order to identify any further issues or potential barriers.

However, at this stage of analysis it is felt the information currently held is sufficient to analysis trends and determine any barriers or negative impacts.

 **Step 5 – Assessing the impact**

In light of any data/consultation/information and your own knowledge and awareness, please identify whether the policy has a positive or negative impact on the individuals or community groups (including what barriers these individuals or groups may face) who identify with any ‘protected characteristics’ and provide an explanation for your decision (please refer to the general duties on the front page).

	<b>Comments</b>
<b>Age</b>	There is a reasonable proportion of grant funding awarded to projects relating to Age. Of the grants awarded, there is a reasonable proportionate spread between projects for older and younger people. The process has therefore created a positive impact in relation to the protected characteristic of Age.
<b>Disability (Physical, visual, hearing, learning disabilities, mental health)</b>	There is a reasonable proportion of grant funding awarded to projects relating to disability. In addition, it is acknowledged that some of the projects funded are cross- cutting and support individuals with multiple characteristics. Therefore, creating further positive impacts for people with disabilities. The process has therefore created a positive impact overall in relation to the protected characteristic of Disability.
<b>Gender Reassignment (Transgender)</b>	No projects have been specifically funded to support the protected characteristic of Gender Reassignment. The impact of this is neutral as there have been no applications to date. However, it is acknowledged that specific marketing / promotion of Charnwood Grants could take place where specific support groups etc. meet for further awareness raising.

<b>Race</b>	There is some grant funding awarded to projects relating to Race. In addition it is acknowledged that some of the projects funded are cross- cutting and support individuals with multiple characteristics.
<b>Religion or Belief (Includes no belief)</b>	<p>Whilst Charnwood Grants do not specifically support religious groups / activities, it does provide funding to these groups who are delivering activities for the wider community.</p> <p>The impact is therefore neutral with regards to the protected characteristic of religion or belief with the acknowledged that wider benefits are created for the wider community.</p>
<b>Sex (Gender)</b>	There is no specific grant funding awarded to projects relating to Gender. In addition, however, it is acknowledged that some of the projects funded are cross- cutting and support individuals with multiple characteristics. The process has therefore created a positive impact in relation to the protected characteristic of Gender.
<b>Sexual Orientation</b>	No projects have been specifically funded to support the protected characteristic of Sexual Orientation. The impact of this is neutral as there have been no applications to date. However, it is acknowledged that specific marketing /
	promotion of Charnwood Grants could take place where specific support groups etc. meet for further awareness raising.
<b>Other protected groups (Pregnancy &amp; maternity, marriage &amp; civil partnership)</b>	There has been some grant funding awarded to projects relating to these other protected groups, therefore the impact is positive. In addition, it is acknowledged that some of the projects funded are cross - cutting and support individuals with multiple characteristics. Additional targeted promotional work will be undertaken.
<b>Other socially excluded groups (carers, low literacy, priority neighbourhoods, health inequalities, rural isolation, asylum seeker and refugee communities etc.)</b>	The grants which focus on the wider community have a wide range of benefits, particularly for residents from priority neighbourhoods or areas of deprivation and hard to reach sectors of the community.

Where there are potential barriers, negative impacts identified and/ or barriers or impacts are unknown, please outline how you propose to minimise all negative impact or discrimination.

Please note:

- a) If you have identified adverse impact or discrimination that is illegal, you are required to take action to remedy this immediately.
- b) Additionally, if you have identified adverse impact that is justifiable or legitimate, you will need to consider what actions can be taken to mitigate its effect on those groups of people.

No negative impacts or potential barriers have been identified. However, it is acknowledged that specific marketing / promotion of Charnwood Grants could take place for the protected characteristics of Gender Reassignment, Pregnancy and Maternity and Sexual Orientation.

Summarise your findings and give an overview as to whether the policy will meet Charnwood Borough Council's responsibilities in relation to equality and diversity (please refer to the general duties on the front page).

It is the opinion that the Charnwood Community grants scheme and the Community Facilities Grant scheme comply with Charnwood Borough Council's equality and diversity responsibilities. It will further promote equal opportunities and achieve positive outcomes.

### **Step 6- Monitoring, evaluation and review**

Are there processes in place to review the findings of this Assessment and make appropriate changes? In particular, how will you monitor potential barriers and any positive/ negative impact?

Monitoring will continue on a quarterly and annual basis to assess the grant applications that are successful. Continuous monitoring and analysis will aim to identify gaps which may potentially highlight barriers or negative impacts towards specific community groups/ communities of interest.

Further equalities monitoring will be explored for those projects which have applied and are deemed unsuccessful, for the further identification of issues or potential barriers.

How will the recommendations of this assessment be built into wider planning and review processes? e.g. policy reviews, annual plans and use of performance management systems.

Where barriers/ negative impacts are identified, the mitigating action and progress against this will be included within the relevant service plan.

### **Step 7- Action Plan**

**Please include any identified concerns/actions/issues in this action plan:**

**The issues identified should inform your Service Plan and, if appropriate, your Consultation Plan**
