

Decision under Delegated Powers

Officer Requesting Decision

Licensing Manager

Officer Making the Decision

Head of Regulatory and Community Safety

Recommendations

1. That the statutory fees that Charnwood Borough Council is required to charge in respect of the specified licences under the Licensing Act 2003 as listed in **Appendix A** and the Gambling Act 2005 as listed in **Appendix B** to this report be noted and implemented from **1st April 2024**.
2. That the proposed fees relevant to those licences and licensing related activities where the authority has the discretion to determine the fees as listed in **Appendix C (Taxis)**, be approved for publication, in line with the relevant legislation, confirming the intention to charge these fees from **1st April 2024**.
3. That following the publication and consultation, the fees outlined in **Appendix C (Taxis)**, if no objections are raised, will be implemented in line with Appendix C. If objections are received, which are then not withdrawn, the fees at Appendix C would be referred to the Licensing Committee.
4. That the proposed fees relevant to those licences and licensing related activities where the authority has the discretion to determine the fees as listed in **Appendices D & E (Sex shop and Scrap Metal)** to this report be approved and implemented from **1st April 2024**. Please note that currently Charnwood has no sex shop establishments, as they closed during the pandemic.

Reasons

1. To note the current statutory fees charged for certain licences.
2. To approve the proposed discretionary fees for Taxis for publication prior to implementation.
3. To implement the fees in Appendix C.
4. To approve the proposed discretionary fees for Sex Establishment and Scrap Metal Dealers.

Authority for the Decision

The power to set fees for licensed drivers is set out in Section 53(2) of the Local Government (Miscellaneous Provisions) Act 1976, whilst the power to set fees for licensed vehicles and operators is Section 70 of the Local Government (Miscellaneous Provisions) Act 1976.

Under the provisions of, the Licensing Act 2003, Gambling Act 2005 and the Local Government (Miscellaneous Provisions) Act 1982, and Scrap Metal Dealers Act 2013, the Council has the power to set fees and charges to cover the costs of the relevant licensing provisions.

The findings of the Hemmings v Westminster City Council case determined that a Council may charge for the steps which an applicant for a licence has to take if he wishes to be granted a licence or to have his licence renewed. The steps may include administrative costs, the costs of vetting the applicant applying for the licence and the costs of investigating the compliance within the terms of the licence. The case also established the importance that surpluses as well as deficits within the Licensing Regime should also be carried forward.

Under the Council's Constitution the Licensing Committee are responsible for all the Council's licensing functions which are not the responsibility of the Executive. The Head of Regulatory and Community Safety has delegated power to undertake the periodic review of fees and charges raised within the service area and falling within the scope of the Council's Income and Charging Policy Framework (Section 8.2 of the Constitution under Delegation to Heads of Service – item 1).

Decision and Date

The new fees and charges are agreed in principle and will now be subject to formal consultation/advertising prior to them being implemented in 2024/25.

Gareth Harvey 14th February 2024

Background

On the 10th February 2015, the Licensing Committee approved that the fee approval process for hackney carriage and private hire licensing would be that the Head of Regulatory and Community Safety publish a notice in a local newspaper with the proposed vehicle and operator fee increases as required

under S70 Local Government (Miscellaneous Provisions) Act 1976. However to ensure transparency all hackney carriage and private hire licence fees are included. Prior to doing so the Head of Regulatory and Community Safety is to formally consult with the Council's Finance Section, the Chair of the Licensing Committee and the relevant Cabinet Lead Member. The discretionary fees and charges will be confirmed by a delegated decision by the Head of Regulatory and Community Safety.

Consideration has been taken into account of Charnwood Borough Councils Income and Charging Policy.

A benchmarking exercise has also been undertaken with the other Leicestershire Licensing Authorities to ensure that the Councils fees are in line and remain competitive.

If any objections are received and not withdrawn the fees will be referred to the Licensing Committee for the fees to be determined. If objections are withdrawn prior to the Licensing Committee meeting then the fees will become lawful at the time of the final objection withdrawal. If no objections are received, the newly amended fees would take immediate effect on the date of the expiration specified in the advertised notice.

VIP who provides the Plating Consumables (the items required to make the licence plates and badges for taxis) review their prices annually. In the year 2023/2024 VIP's prices increased by 13.4% in line with RPI (Retail Price Index).

Charnwood Borough Council review their costs against the CPI (Consumer Price Index) , Decembers 2023 CPI 4% has been incorporated into the costs.

Whilst there has been an increase in the cost of the Licence fees, they remain below the outlined costs in Appendices, C D & E. They are proposed to be set at this level to better reflect actual costs.

Implementation Timetable

The agreed fees and Charges 2024/2025, subject to consideration of any appropriate significant objections for the Private Hire and Hackney Carriage Licence fees at Appendix C , which are required to be advertised, shall come into effect on the 1st April 2024.

Proposed Fees

The Chair of the Licensing Committee and the Lead Member for Business Support have been consulted on the proposed fees, which are detailed in Appendices C, D, & E of the report and have approved them for implementation.

A breakdown of the estimated costs for the administration, determination and compliance checks for each licence is outlined within Appendices C to E.

It is open to the Council to charge a reasonable fee, but this must not be more than the actual costs outlined in Appendices C to E.

The Licensing Act Fees (**Appendix A**) were set by Central Government and have not increased since 2003, meaning that the statutory fee income received to administer and enforce these licences have not increased. Therefore in real terms the overall income received by the authority (linked to inflation and costs) has reduced. The Service will continue to look at how to process and administer these licences in the most efficient manner.

It is proposed to revise the Sex Establishment fees at this time, to represent the different costs for a Grant Application to that of the renewal. There are currently not any licensed sex establishments within Charnwood but it is considered prudent to have a licensing fee.

The Scrap Metal Dealers Fees were introduced in 2013 and it is proposed to increase the Scrap Metal Fees to reflect the actual costs of the service in 2024/2025.

An additional check was introduced in March 2022 for Scrap Metal dealers in the form of the HMRC 'Tax Conditionality' A new business must confirm that they are aware of their requirements to register for tax with the HMRC by signing a declaration to that effect on their application form, whilst a renewing business provides a nine digit code to show they are registered for tax purposes. This is not a financial check and Council Officers cannot see the financial details of drivers. This check is carried out by the Licensing staff on receipt of a scrap metal dealer application form.

Comments from HR

HR comments are not applicable to the content of this report and have, therefore, not been obtained.

Financial Implications

The additional renewal fees for the future year of 2024/2025 will approximately increase the Licensing fee income by approx **£10k**, which will contribute to the increased costs of the service, as a result of inflation and salary increases.

Risk Management

Risk Identified	Likelihood	Impact	Risk Management Actions Planned
Challenge that the Council fees are not reasonable	Possible	Moderate	The fees have been set with consideration to guidance issued for the settings of fees and charges to ensure that the cost of administering each licence provision is covered. Calculation of fees will be undertaken in consultation with the finance section of the Council.

Risk Identified	Likelihood	Impact	Risk Management Actions Planned
			In respect of the Taxis consideration has been taken into account that they do not result in trade numbers falling and therefore impacts on the service provision to the public of Charnwood.
The new fees not being set by the 1 st April or May 2023	Unlikely	Moderate	Once approved the fees will be advertised and any objections discussed with the view of the objection being withdrawn, preventing need for further hearing.

Key Decision: No
