

Emergency Heaters

The Warm Homes, Healthy Homes scheme is funded by the Department of Health through Leicestershire County Council in partnership with National Energy Action. Papworth Trust Home Solutions and your local authority will hold the emergency heaters for those without adequate heating in the home.

If you have no central heating or it has broken down, if you have no access to a fire or other method of keeping warm and cannot afford heaters, you will be eligible for help under this scheme.

There are 2KW convector heaters, which are available free of charge through this scheme. If this is the case, please telephone:

Papworth Trust Home Solutions: 0116 303 3232 during normal office hours.

If you need access to emergency heaters, please telephone your local authority on 01509 634651 who also holds a small stock of them.

The heaters are free as this is not a loan scheme. You will be asked to sign a small form stating that you have taken possession of the heater.
