

# CHARNWOOD SHELAA SITE ASSESSMENT 2020

## Site Description

**Site Reference:**  **Site name/location:**

**Site size:**  **Parish:**

**Current land use and character:**

**If site is currently being developed what progress has been made:**

**Land uses and character of surrounding area**

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

**Are there any environmental constraints to development?**

**What are the potential impacts of the development?**

**Is the site affected by the development plan, emerging plan policy and national policy?:**

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

**Would the site contribute to any regeneration priority areas?**

## What is the development potential of the site?

**Dwellings / employment floorspace m2?**

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 45 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and a suitable access could potentially be achieved.

### Is the site available?:

The site does not have planning permission and is not owned by a developer with the intention to develop.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

### If issues have been identified, how will and when will these be overcome?

No known irresolvable physical/environmental constraints

Has planning permission been granted previously?: Yes

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 6 dwellings per annum

**Is the site suitable?:** There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development and a suitable access can be achieved.

**Is the site available?:** Planning permission has now lapsed and other use has come forward on site.

**Is the site achievable?** There is considered to be a reasonable prospect that development will be delivered within the timeframe shown based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

### If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No known irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:** PSH305 **Site name/location:** Land to the rear of 89 Loughborough Road

**Site size:** 1.67ha **Parish:** Hathern

**Current land use and character:** vacant agricultural land, gently falls broadly west to east.

**If site is currently being developed what progress has been made:** N/A

**Land uses and character of surrounding area** Occupying land to the rear of residential properties on the A6,

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

Housing

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

No flood risk

**Are there any environmental constraints to development?**

None

**What are the potential impacts of the development?**

The site consists of a grassland field; boundary hedgerows with mature trees run along the south-eastern boundary and part of the north-western boundary. There are records of bat roosts and foraging common pipistrelle bats in the vicinity and badgers are known to occur within the wider area. The hedgerows form part of the local biodiversity network which is likely to be of importance as commuting routes / foraging grounds to local bats and badgers. Issues: long-term retention and protection of trees and hedgerows as habitats and wildlife corridors. Grade 3 Agricultural Land

**Is the site affected by the development plan, emerging plan policy and national policy?:**

DRAFT ALLOCATION HS68

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

Charnwood as a whole is seen as an attractive place to live and market homes.

**Would the site contribute to any regeneration priority areas?** No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### What is the development potential of the site?

Dwellings / employment floorspace m2?

41

### Is the site available for development?

Is the site available for development?:

Yes

Are there any legal or ownership problems?

None

If issues have been identified, how will and when will these be overcome?

No known irresolvable physical/environmental constraints.

Has planning permission been granted previously?:

No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?

6-10 years

What is the expected build out rate?:

41 dwellings per annum

### Is the site suitable?:

There are no irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development and a suitable access can be achieved.

### Is the site available?:

Site has been promoted through the planning application process although this has been refused permission.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below shown on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No known irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA?

No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No known irresolvable physical/environmental constraints

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 50 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development and a suitable access can be achieved.

### Is the site available?:

The site does not have planning permission but is owned by a developer with the intention to build out the site.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe shown based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No known irresolvable physical/environmental constraints

Site to be excluded from the SHELAA? No
