

**ANTI-SOCIAL BEHAVIOUR, CRIME AND POLICING ACT 2014  
CHARNWOOD BOROUGH COUNCIL**

**DATE: AUTUMN 2024**

**NOTICE OF INTENTION TO MAKE A PUBLIC SPACES PROTECTION ORDER  
WASTE RELATED ISSUES – LOUGHBOROUGH SELECTED AREA**

Notice is hereby given that Charnwood Borough Council ('the Council') proposes for the **purposes of reducing antisocial behaviour in relation to waste related matters to make a Public Spaces Protection Order** under Section 59 of the Anti-Social Behaviour, Crime and Policing Act 2014 and of all other enabling powers.

**The Council would like to seek your views on the proposed Notice of Intention to make an order. This Notice outlines the details of the proposed restrictions and the locations in the schedule on page 2. Any comments should be completed using the smart survey on the link below, using the QR Code below or writing to the Head of Regulatory and Community Safety (details below).**

At the closure of the formal consultation period, Charnwood Borough Council will review all comments and will decide on whether to make the order or an alternative in part or in full.

The Public Spaces Protection Order will seek to address anti-social behaviour issues relating to waste receptacles not being used or stored as intended across the selected area of Loughborough. The majority of occupiers are responsible and employ waste control but there are some occasions where additional controls are necessary to ensure all people in the area are acting responsibly.

The Council takes the health and well-being of the residents very seriously, and seeks to promote a healthy, safe environment for all residents, protecting them from anti-social behaviour in the form of waste related issues. These issues include:

- Occupiers leaving waste receptacles out on the highway
- Occupiers leaving additional waste at the side the receptacles
- Occupiers not using the receptacles effectively, so they are not collected and then causing issues with windblown litter.
- Occupiers leaving receptacles on the highway causing obstruction issues.
- Occupiers leaving receptacles on the highway causing new residents to think that this is the correct approach causing more issues as detailed above.

The effect of the Order will be to apply conditions to occupiers by:

- Insisting they remove all receptacles from the highway within the prescribed period.

- Insisting all occupiers put a waterproof bin number on all receptacles for that property.
- Insisting occupiers remove waste receptacles from the highway whether they are in occupation or away from the property by means of a person (s) who are in agreement that they will remove the waste receptacle after collection.

This Order applies to the public places described in the Schedule to this Order (“the restricted area”)
