

Charnwood Local Plan – Post Hearing Consultation Response

Tobias Moechel

I like to add some comments to the Charnwood local plan 2021-2037, in particular the Draft Transport Strategies Exam 75:

I would like you to consider the cumulative impact of HA17, HA16 and HA15 on the transport infrastructure, in particular on Laburnum Way, Haddon Way and Highlands Drive. The estate now suffers from major street parking due to design and layout mistakes. Additional 1350 dwellings will have a serious impact that needs to be considered fully.

Leicestershire County Council Draft Transport Strategy 3.1.4 for the Charnwood Local Plan in terms of assessing the transport is to leave it to the individual developers which we disagree with and will lead to a worsening of the transport situation in the Grange estate.
