

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:**  **Site name/location:**

**Site size:**  **Parish:**

**Current land use and character:**

**If site is currently being developed what progress has been made:**

**Land uses and character of surrounding area**

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

**Are there any environmental constraints to development?**

**What are the potential impacts of the development?**

**Is the site affected by the development plan, emerging plan policy and national policy?:**

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

**Would the site contribute to any regeneration priority areas?**

## What is the development potential of the site?

**Dwellings / employment floorspace m2?**

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

### If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?: 6-10 years

What is the expected build out rate?: 50 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent to Loughborough within Quorn Parish.

### Is the site available?:

The site does not have planning permission and is not owned by a developer with the intention to develop.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

### If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:** PSH44 **Site name/location:** Buddon Lane, Quorn

**Site size:** 2.40ha **Parish:** Quorn

**Current land use and character:** Land cover comprises pasture. Boundaries of the Site are formed by thick hedgerows with many mature broadleaved trees.

**If site is currently being developed what progress has been made:** N/A

**Land uses and character of surrounding area** Residential to the north, Great Central Railway to the west, open countryside to the south and east.

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

Residential

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

Not within flood risk zones.

**Are there any environmental constraints to development?**

None

**What are the potential impacts of the development?**

Habitat loss could be mitigated on site. Impacts on landscape could be avoided via design. Site's sensitivity arises from its position in the landscape (close to sensitive sites and along a potential movement corridor).

**Is the site affected by the development plan, emerging plan policy and national policy?:**

Outside limits to development.

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

Charnwood as a whole is seen as an attractive place to live and market homes.

**Would the site contribute to any regeneration priority areas?** No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### What is the development potential of the site?

Dwellings / employment floorspace m2?

45

### Is the site available for development?

Is the site available for development?:

Yes

Are there any legal or ownership problems?

None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?:

No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?:

6-10 years

What is the expected build out rate?:

45 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and the site is in a suitable location for development adjacent to a service centre.

### Is the site available?:

The site is owned by a developer with the intention to develop

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA?

No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

Site Reference:  Site name/location:

Site size:  Parish:

Current land use and character:

If site is currently being developed what progress has been made:

Land uses and character of surrounding area

## Site Boundary

## Assessment of potential use of the site

Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?

## Assessment of constraints and potential impacts

Are there any physical constraints to development?

Small-scale overhead lines cross the western part of the Site. Flood Zone 2 covers the whole of the site. Only 0.75 ha is outside Flood Zones 3a & 3b.

Are there any environmental constraints to development?

Noise from adjacent A6 dual carriageway.

What are the potential impacts of the development?

Loss of grassland. Majority Grade 3 Agricultural Land with 0.58ha of Grade 2 in the south east corner of the site.

Is the site affected by the development plan, emerging plan policy and national policy?:

Outside the Limits to Development.

How appropriate and what is the likely market attractiveness for the type of development proposed?

Charnwood as a whole is seen as an attractive place to live and market homes.

Would the site contribute to any regeneration priority areas?

## What is the development potential of the site?

Dwellings / employment floorspace m2?

19

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems?

## If issues have been identified, how will and when will these be overcome?

Flood mitigation measures would need to be put forward.

Has planning permission been granted previously?:

## What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?

What is the expected build out rate?

## Is the site suitable?:

Site adjacent to a Service Centre and there are no known irresolvable physical/environmental constraints preventing development though only 0.75ha available for development due to flooding issues.

## Is the site available?:

Planning application has been refused on the site.

## Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

## If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

Any successful application will have to demonstrate that any flood mitigation measures like raising the floor levels doesn't result in increasing flood risk elsewhere.

Site to be excluded from the SHELAA?

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:** PSH85 **Site name/location:** Land corner of Leicester Road/Main Road, Woodthorpe

**Site size:** 1.67ha **Parish:** Quorn

**Current land use and character:** Vacant land last used as horse paddocks.

**If site is currently being developed what progress has been made:** Site is expected to build out within 5 years.

**Land uses and character of surrounding area** The Great Central Railway runs along one of the boundaries of the site and the A6 runs along the east.

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

Residential

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

Not within flood risk zones.

**Are there any environmental constraints to development?**

None

**What are the potential impacts of the development?**

Site adjacent to Great Central Railway which functions as a wildlife corridor across a major road.

**Is the site affected by the development plan, emerging plan policy and national policy?:**

Within the Limits to Development.

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

Charnwood as a whole is seen as an attractive place to live and market homes.

**Would the site contribute to any regeneration priority areas?** No

## What is the development potential of the site?

**Dwellings / employment floorspace m2?**

33

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: Yes

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? Within 5 years

What is the expected build out rate?: 33 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and a suitable access could potentially be achieved, site is in a suitable location for development adjacent to Loughborough.

### Is the site available?:

Reserved Matters now granted.

### Is the site achievable?:

Builder keen to develop the site with completion expected within 5 years.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### What is the development potential of the site?

Dwellings / employment floorspace m2?

27

### Is the site available for development?

Is the site available for development?:

Yes

Are there any legal or ownership problems?

None.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?:

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?:

11-15 years

What is the expected build out rate?:

27 dwellings per annum

**Is the site suitable?:**

There are no irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent a service centre and a suitable access can be achieved.

**Is the site available?:**

The site does not have planning permission but is being promoted through th SHELAA.

**Is the site achievable?**

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

**If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:**

No irresolvable physical/environmental constraints.

**Site to be excluded from the SHELAA?**

No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

<b>Site Reference:</b>	PSH248	<b>Site name/location:</b>	
<b>Site size:</b>	24.5 ha	<b>Parish:</b>	Loughborough
<b>Current land use and character:</b>	Land use is primarily arable cropping within large scale fields which are divided by low cut hedgerows with few trees.		
<b>If site is currently being developed what progress has been made:</b>	N/A		
<b>Land uses and character of surrounding area</b>	Housing, parkland, village of Woodthorpe, agriculture, woodlands		

## Site Boundary

## Assessment of potential use of the site

### Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?

Housing, primary school, local centre (including convenience store and local workspaces such as offices) and related open space areas and infrastructure

## Assessment of constraints and potential impacts

### Are there any physical constraints to development?

Not within flood risk zones.

### Are there any environmental constraints to development?

None

### What are the potential impacts of the development?

Grade 2 Agricultural Land for majority of the site. A single footpath crosses the Site, linking Loughborough to Woodhouse. Loss of habitat, impact on LWS. Impact on connection of River Soar Strategic Corridor to wider Landscape. Consider also cumulative impacts.

### Is the site affected by the development plan, emerging plan policy and national policy?:

Outside the Limits to Development.

### How appropriate and what is the likely market attractiveness for the type of development proposed?

Charnwood as a whole is seen as an attractive place to live and market homes.

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

Would the site contribute to any regeneration priority areas? No

### What is the development potential of the site?

Dwellings / employment floorspace m2? 459

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 11-15 years

What is the expected build out rate?: 100 dwellings per annum (2 builders)

**Is the site suitable?:** There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent to Loughborough.

**Is the site available?:** The site does not have planning permission but has developer interest. An extension to PSH255 and under the same ownership.

**Is the site achievable?** There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

**If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:**

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No
