

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:**  **Site name/location:**

**Site size:**  **Parish:**

**Current land use and character:**

**If site is currently being developed what progress has been made:**

**Land uses and character of surrounding area**

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

**Are there any environmental constraints to development?**

**What are the potential impacts of the development?**

**Is the site affected by the development plan, emerging plan policy and national policy?:**

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

**Would the site contribute to any regeneration priority areas?**

## What is the development potential of the site?

**Dwellings / employment floorspace m2?**

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? Family ownership.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 30 dwellings per annum

**Is the site suitable?:** There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent to Shephed.

**Is the site available?:** The site does not have planning permission but landowners are keen to develop.

**Is the site achievable?** There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

**If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:**

No irresolvable physical/environmental constraints.

**Site to be excluded from the SHELAA?** No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? Tenacy on site.

### If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?: 11-15 years

What is the expected build out rate?: 6 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development. The site does not have good access to service and facilities.

### Is the site available?:

The site does not have planning permission and is not owned by a developer with the intention to develop

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

### If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: No

Are there any legal or ownership problems? Currently leased, but expected to become vacant within the plan period.

### If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?: 6-10 years

What is the expected build out rate?: 44 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development within Shepshed and a suitable access can be achieved. A third of the site is affected by pylons so couldn't be developed.

### Is the site available?:

The site is tenanted which will prevent the site from coming forward in the short term.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

### If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

Site size:	<input type="text" value="0.50 ha"/>	Parish:	<input type="text" value="Shepshed"/>
Current land use and character:	<input type="text" value="Mature gardens with mature orchard planting , other trees and woody planting."/>		
If site is currently being developed what progress has been made:	<input type="text" value="N/A"/>		
Land uses and character of surrounding area	<input type="text" value="Parema factory to the west, a doctors surgery and pharmacy to the north and residential uses."/>		

## Site Boundary

## Assessment of potential use of the site

Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?

## Assessment of constraints and potential impacts

Are there any physical constraints to development?

Are there any environmental constraints to development?

What are the potential impacts of the development?

Is the site affected by the development plan, emerging plan policy and national policy?:

How appropriate and what is the likely market attractiveness for the type of development proposed?

Would the site contribute to any regeneration priority areas?

## What is the development potential of the site?

Dwellings / employment floorspace m2?

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? In multiple ownerships.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 11-15 years

What is the expected build out rate?: 12 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and it has good access to service and facilities.

### Is the site available?:

The site does not have planning permission and is not owned by a developer with the intention to develop

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: N/A Site Under construction

Are there any legal or ownership problems? N/A Site Under construction

If issues have been identified, how will and when will these be overcome?

N/A Site Under construction

Has planning permission been granted previously?: Yes

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? Within 5 years

What is the expected build out rate?: 30 dwellings per annum

Is the site suitable?: N/A Site Under construction

Is the site available?: N/A Site Under construction

Is the site achievable? Site is expected to build out within 5 years.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

N/A Site Under construction

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: No

Are there any legal or ownership problems? Tenancies on site.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 11-15 years

What is the expected build out rate?: 50 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent to Shepshed and a suitable access can be achieved.

### Is the site available?:

The site is in use and is not owned by a developer with the intention to develop.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 50 dwellings per annum

**Is the site suitable?:** There are no known irresolvable physical/environmental constraints preventing development and a suitable access could potentially be achieved.

**Is the site available?:** The site does not have planning permission but put forward through the SHELAA process.

**Is the site achievable?** There is considered to be a reasonable prospect that development will be delivered within the timeframe shown based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

**If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:**

No irresolvable physical/environmental constraints.

**Site to be excluded from the SHELAA?** No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: Yes

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 11-15 years

What is the expected build out rate? 50 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development within Shephed and a suitable access can be achieved.

### Is the site available?:

Planning permission granted, S.106 agreement signed but site has now reverted back to its original use due to improvements in the economy and the increased demand for vans/lorries and is no longer available for housing.

### Is the site achievable?

No longer achievable in the next 5 years, but in the longer term the site may well come forward again.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: N/A Site Under construction

Are there any legal or ownership problems? N/A Site Under construction

If issues have been identified, how will and when will these be overcome?

N/A Site Under construction

Has planning permission been granted previously?: Yes

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? Within 5 years

What is the expected build out rate?: 50 dwellings per annum

Is the site suitable?: There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent Shepshed.

Is the site available?: Underconstruction

Is the site achievable? Site underconstruction with the majority of the site built out within 5 years.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

N/A Site Under construction

Site to be excluded from the SHELAA? No

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate? 1ha per annum

### Is the site suitable?:

No irresolvable physical/environmental constraints affecting development, suitable location for development and a suitable access could be achieved.

### Is the site available?:

This site does not have planning permission but has developer interest. Site also put forward as a possible housing site.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

Site Reference:  Site name/location:

Site size:  Parish:

Current land use and character:

If site is currently being developed what progress has been made:

Land uses and character of surrounding area

## Site Boundary

## Assessment of potential use of the site

Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?

Residential.

## Assessment of constraints and potential impacts

Are there any physical constraints to development?

Not within a flood risk zone.

Are there any environmental constraints to development?

None

What are the potential impacts of the development?

Grade 3 Agricultural land, adjacent a LWS. Loss of priority habitat. Within National & Charnwood Forest. Horse grazed acid grassland with potential to meet LWS criteria.

Is the site affected by the development plan, emerging plan policy and national policy?:

Outside the Limits to Development.

How appropriate and what is the likely market attractiveness for the type of development proposed?

Charnwood as a whole is seen as an attractive place to live and market homes.

Would the site contribute to any regeneration priority areas?

## What is the development potential of the site?

Dwellings / employment floorspace m2?

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 11-15 years

What is the expected build out rate?: 20 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development, though site is more for the longer term as part of any larger sites that may come forward in the future.

### Is the site available?:

The site does not have planning permission and is not owned by a developer with the intention to develop

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

What is the expected build out rate?: 10 dwellings per annum

**Is the site suitable?:** There are no known irresolvable physical/environmental constraints preventing development, the site is in a suitable location for development adjacent to Shepshed

**Is the site available?:** Site under construction.

**Is the site achievable?** Site under construction and is expected to build out within 5 years.

**If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:**

N/A Site Under construction

**Site to be excluded from the SHELAA?** No

# CHARNWOOD SHELAA SITE ASSESSMENT 2019

## Site Description

**Site Reference:**  **Site name/location:**

**Site size:**  **Parish:**

**Current land use and character:**

**If site is currently being developed what progress has been made:**

**Land uses and character of surrounding area**

## Site Boundary

## Assessment of potential use of the site

**Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?**

## Assessment of constraints and potential impacts

**Are there any physical constraints to development?**

**Are there any environmental constraints to development?**

**What are the potential impacts of the development?**

**Is the site affected by the development plan, emerging plan policy and national policy?:**

**How appropriate and what is the likely market attractiveness for the type of development proposed?**

**Would the site contribute to any regeneration priority areas?**

## What is the development potential of the site?

**Dwellings / employment floorspace m<sup>2</sup>?**

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? Possibly different land ownerships.

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years?: 6-10 years

What is the expected build out rate?: 50 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and the site is in a suitable location for development adjacent to Shepshed and a suitable access could potentially be achieved.

### Is the site available?:

The site does not have planning permission but is being promoted by a developer.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No

## Assessment of potential use of the site

Initial assessment of whether the site is suitable for a particular use or as part of a mixed-use development?

## Assessment of constraints and potential impacts

Are there any physical constraints to development?

Are there any environmental constraints to development?

What are the potential impacts of the development?

Is the site affected by the development plan, emerging plan policy and national policy?:

How appropriate and what is the likely market attractiveness for the type of development proposed?

Would the site contribute to any regeneration priority areas?

## What is the development potential of the site?

Dwellings / employment floorspace m2?

## CHARNWOOD SHELAA SITE ASSESSMENT 2019

### Is the site available for development?

Is the site available for development?: Yes

Are there any legal or ownership problems? None

If issues have been identified, how will and when will these be overcome?

No irresolvable physical/environmental constraints.

Has planning permission been granted previously?: No

### What is the likely timescale for development?

What is the time frame for development 0-5, 6-10 or 11-15 years? 6-10 years

What is the expected build out rate?: 11 dwellings per annum

### Is the site suitable?:

There are no known irresolvable physical/environmental constraints preventing development and the site is in a suitable location for development adjacent to Shepshed and a suitable access could potentially be achieved.

### Is the site available?:

The site does not have planning permission but is being promoted by a developer.

### Is the site achievable?

There is considered to be a reasonable prospect that development will be delivered within the timeframe below based on a judgement of the potential economic viability of the site and developer capacity to complete and let/sell the development over that period.

If constraints have been identified that impact on the suitability, availability and achievability of a site, how will these be overcome?:

No irresolvable physical/environmental constraints.

Site to be excluded from the SHELAA? No
