

**PERFORMANCE AND MANAGEMENT SCRUTINY COMMITTEE**  
**22nd March 2005**

**Report of the Assistant Chief Executive (Risk Management)**

ITEM10 PERFORMANCE INDICATORS

Purpose of Report

In accordance with the procedures established by Scrutiny Commission at its meeting in February 2004, the Committee is invited to consider comparative performance results published by the Audit Commission. These show the Council's performance across the range of nationally prescribed Performance Indicators for 2003/04 in relation to other English District/Borough Councils and in relation to Audit 'near neighbours' comprising authorities with similar characteristics.

Recommendation

The Committee is invited to consider the levels of performance and to take any steps that it considers appropriate.

Reason

The Committee has a general responsibility to scrutinise achievement of targets.

Background

The information presented is in the format used for Chief Executive's team with directional arrows showing whether performance has improved since 2002/03 () , has remained the same () or has deteriorated () . Quartile positions are similarly denoted.

			2002/03	<i>Information not collected</i>				
<b>Comments of Kevin Biddulph</b>								
In 2002/03 the data recorded by Council's Energy Efficiency Officer was incorrect. item ii) fossil fuels was not collected individually but included within item i) electricity, thus corrupting the collected PI data.								
In 2003/04 the actuals for fossil fuels and electricity were 6.42% & 29.42% respectively over the national typical targets for local authorities i.e.100%. In 2004/5 Energy Management was transferred to Asset Services which has since actively pursued Energy Efficiency through lighting audits, revised heating settings, new optimisers, time clocks for Photostat machines etc, and it is hoped that these measures will reduce typical usage to the 100% target.
